ABOUT ME

I am a System and Network Administration graduate with practical experience in IT support and network troubleshooting. I completed a 3-month internship at Bralima, where I provided technical support, maintained IT systems, and assisted with network and infrastructure management.

I also hold a CCST Networking certification and have strong skills in Windows Server, Linux systems, and network security fundamentals.

I am passionate about cybersecurity and network infrastructure, and I am seeking opportunities to further develop my expertise in system administration and network security within an international academic or professional environment.

LANGUAGE SKILLS

Mother tongue(s): **FRENCH**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	B2	B2	B2	B2	B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

EDUCATION AND TRAINING

15/10/2021 – 10/08/2025 lubumbashi, Democratic Republic of the Congo

BACHELOR'S DEGREE IN SYSTEM AND NETWORK ADMINISTRATION Université Don Bosco de Lubumbashi (UDBL)

Computer Networks and Systems Administration
Cybersecurity fundamentals
Windows Server administration
Linux system administration
Network security and monitoring
Firewall configuration (pfSense)
RDP security hardening
Authentication systems and 2FA

Website <https://www.udbl.ac.cd/public/index.php> | **Field of study** Computer Science /Network and System Administration |

Final grade With Distinction | **Level in EQF** EQF level 6 |

Thesis Renforcement de la sécurité RDP et atténuation des attaques par force brute dans les environnements Windows

● WORK EXPERIENCE

IT SUPPORT INTERN – BRALIMA S.A. – 15/03/2025 – 15/06/2025 – LUBUMBASHI, DEMOCRATIC REPUBLIC OF THE CONGO

Address: Route de la Munama, Lubumbashi, Congo - Kinshasa., lubumbashi, Democratic Republic of the Congo

Provided technical support to end users (hardware and software issues).
Installed, configured, and maintained computer systems and peripherals.
Assisted in network troubleshooting and connectivity issues.
Managed user accounts and access permissions.
Performed system updates and preventive maintenance.
Supported Windows operating systems and office applications.
Assisted IT team in maintaining network and infrastructure stability.

● CERTIFICATIONS

Cisco, 21/05/2026

Cisco Certified Support Technician (CCST) Networking

Cisco CCST Networking certification validating skills in network fundamentals, TCP/IP, routing and switching, network troubleshooting, and basic network security. This certification demonstrates practical knowledge required for IT support and entry-level network engineering roles.

Mode of learning: Online

cisco, 05/11/2025

Cisco Networking Academy – CCNA Modules 2 & 3

Completed Cisco Networking Academy CCNA Modules 2 and 3, focusing on intermediate networking concepts including switching technologies, VLANs, routing protocols, and enterprise network design.
Gained practical skills in configuring and troubleshooting LAN/WAN infrastructures, implementing basic network security measures, and understanding scalable enterprise network architectures.
Developed hands-on experience in network simulation environments and applied core concepts related to routing, switching, and network security fundamentals.
